

1. BACK TO THE GOOD LIFE

Feels like I'm walking thru a minefield  
One bad move and I am gone  
You and me just ain't the real deal  
You're always coming on too strong  
You give me nothing but a headache  
You make it hard just to get by  
It's time you stopped and give me a break  
I've had enough, and that's no lie

You make me feel like I'm a no good  
'cause I don't do the things you like  
I hope for you that it's understood  
It's time for you to take a hike  
I curse the day that I met you  
I think I must have been blind  
There's only one thing for me to do  
Make a new start, leave you behind

What did I do before I met you  
Used to hang out with all my friends  
From now on I don't think I let you  
Spoil all the fun, girl, here it ends  
I'm going back to the good life  
Have myself a real good time  
Don't worry honey, 'cause I will survive  
And don't try to call me, I'll be fine

The good life,  
I'm going back to the good life  
The good life,  
I'm going back to the good life  
And don't try to call me, I'll be fine

What did I do before I met you  
Used to hang out with all my friends  
From now on I don't think I let you  
Spoil all the fun, girl, here it ends  
I'm going back to the good life  
Have myself a real good time  
Don't worry honey, 'cause I will survive  
And don't try to call me, I'll be fine

The good life,  
I'm going back to the good life  
The good life,  
I'm going back to the good life  
And don't try to call me, I'll be fine

6. A PART OF ME

Looking out through the window, I see the coastline passing by  
It is only a few minutes, since I checked in for this flight  
Down below I see the airport, and the highways all around  
One is leading to the city, to the place where I was bound

Cause she chose to live life in the sun  
Far away from where her life begun  
Found herself a cottage by the sea  
Doesn't matter where she is, she'll always be a part of me

Years ago in september, that's when she gave me the news  
That's the day that I'll remember, as the day I had to choose  
Between the past and the future, life goes on, don't you know  
It was time to do the right thing, had to learn how to let go

Cause she chose to live life in the sun  
Far away from where her life begun  
Found herself a cottage by the sea  
Doesn't matter where she is, she'll always be a part of me

Now she's working in a cafe, with a terrace by the sea  
Speaks the language of the folks there, she looks happy as can be  
When I left her at the airport, one last thing she had to say  
I've been thinking 'bout my hometown, but it's here I'm gonna stay

Cause she chose to live life in the sun  
Far away from where her life begun  
Found herself a cottage by the sea  
Doesn't matter where she is, she'll always be a part of me

2. TAKE MY ADVICE

Keep moving, or else you're gonna stay behind  
Keep grooving, you know the music frees your mind

Keep talking, don't hold it in, just let it out  
Keep walking, hold your head up and be proud

Just take a piece of advice  
Turn your life into something nice  
Feeling bad would be a crying shame  
You know you only got yourself to blame

Keep going, you're doing fine now, don't you stop  
Keep growing, you're gonna make it to the top

Keep playing, try to get rid of all your blues  
Keep praying, when you got hope you just can't lose

Just take a piece of advice  
Turn your life into something nice  
Feeling bad would be a crying shame  
You know you only got yourself to blame

Stop fighting, it ain't no use getting upset  
Stop hiding, it's time that you got out of bed

Stop moaning, you got more luck than all the rest  
Stop groaning, accept the fact you're second best

Just take a piece.....(2x)

Stop thinking, nobody likes to see you frown  
Stop drinking, to much liquor get's you down

Stop yelling, the more you shout, the less you're heard  
Stop telling, your pity stories, it's absurd

Just take a piece.....(4x)

7. I WANT YOU BACK

Happy days are dead and gone  
It's getting harder to move on  
Seems like only yesterday  
You said goodbye and went away

Here I'm sitting in a chair, not knowing what to do  
No use crying it ain't fair, can't stop feeling blue

I thought our love would never end  
It seemed that you were heaven sent  
I was so proud to be your man  
So why you're gone, I can't understand

You left me howling at the moon, in broad daylight  
Seems like wintertime in june, days are turning into night

Empty bottles on the floor  
Don't know what I'm living for  
The t.v.'s on around the clock  
I'm between a hard place and a rock

I should get up, get on my feet, and go outside  
I should be walking in the street, put my thoughts aside

But the feeling is too strong  
I want you back where you belong  
Right beside me's where you'll be  
I want you near me, can't you see

Used to pretend that I am tough, but look again  
This time you really called my bluff, let me be your man

3. DON'T EVEN NOW HER NAME

She likes that rum and coke, and she sings the blues  
She likes to stay out late at night, to come home and tell her daddy the news

She's a little bit lazy, lord she's a little bit crazy  
She's gonna drive me insane, don't even know her name  
She's gonna drive me insane  
She's gonna drive me insane, don't even know her name

She wears them highheeled shoes, boy and she knows that she's fine  
I try not to show it, boys when she makes me cry

She's a little bit lazy, lord she's a little bit crazy  
She's gonna drive me insane, don't even know her name  
She's gonna drive me insane  
She's gonna drive me insane, don't even know her name

She's gonna drive me insane  
She's gonna drive me insane, don't even know her name

For me she's like the brightest star, that shines through the night  
You know the only thing I wanna do, is just to reach out and hold her tight

She's a little bit lazy, lord she's a little bit crazy  
She's gonna drive me insane, don't even know her name  
She's gonna drive me insane  
She's gonna drive me insane, don't even know her name

She wears them highheeled shoes, boy and she knows that she's fine  
I try not to show it, boys when she makes me cry

Boy when she makes me cry.....she makes me cry  
Oh, I don't know why.....she makes me cry

She's gonna drive me insane  
She's gonna drive me insane, don't even know her name

8. GREED

I got 6 big cars, all shiny and new  
I got a 80 foot yacht with a 5 man crew  
I got a big fine house and a pool in the yard  
stealing peoples money just ain't so hard

Oh lordy, yes indeed  
I got more than I need cause I got greed

I got a shitload o'money, all stashed away  
I got more than enough for a rainy day  
I got friends galore and we party on through  
Champagne, caviar, piss on you

Oh lordy, yes indeed  
I got more than I need cause I got greed

I got alligator shoes on my feet  
Diamond rings baby, can't be beat  
Got me a girl in every town  
They love it when big daddy comes around

I got lady Fortune smiling my way  
Life's so sweet, life's O.K.  
But something's wrong, I've been keeping score  
I got mine, but you got more

Oh lordy, yes indeed  
I got more than I need cause I got greed

4. NO MORE ALIBIES

Don't like the things that you're doing  
Don't like the way that you're treating me

You turn my life into a ruin  
I know for shure that you're cheating me

Don't like the things that you're saying  
I think that they're all just a pack of lies

Don't sell me no more alibies

I'm getting tired of all your stories  
About being a real good friend of mine

You give me nothing but worries  
I think our future is on the line

Don't think that I can still believe you  
When you tell me everything is sugar and spice

Don't sell me no more alibies

Everybody tells me to wake up  
Just take control and kick you out

Maybe it's true, it's time to break up  
This ain't what real love's all about

Though it's so hard for me to give up  
Trying to hang on, it just ain't wise

You don't sell me no more alibies

5. GIMME, GIMME

I got up at half past eight  
Hurry, hurry, can't be late  
Looked in the mirror, what a sorry sight  
But there's one thing that 'll set me right

Stumbled down the street, looking like hell  
No sir, didn't feel too well  
Never again, oh no for sure  
For my aching head there's just one cure  
Gimme, gimme, gimme,gimme,  
Gimme, gimme, gimme that drink

Down I went to my local bar  
Right nextdoor, didn't have to go far  
My head was aching, my mouth all dry  
Felt so bad, thought I would die  
Gimme, gimme, gimme, gimme,  
Gimme, gimme, gimme that drink  
Gimme a shot, quick, before I sink  
Into a state of mind where my brain is on the blink  
Gimme, gimme, gimme, gimme,  
Gimme, gimme, gimme that drink

Jimmy, Johnny and even Fred  
were sitting at the bar, heads like lead  
I sat me down, none too quick  
Lordy mama, did I feel sick  
Gimme, gimme, .....

Hey bartender, please be kind  
Line'm all up and never mind  
Memory's gone, liver too  
There's just one thing I can say to you  
Gimme, gimme,.....

9. THE WRONG KEY

when I met you, it felt like heaven  
'cause you were looking like a dream  
couldn't believe the luck that I was having  
everything was peaches and cream

the years went by and I discovered  
that you were never satisfied  
the more I tried to be your lover  
the more it ended in a fight

tell me, why should I be sorry  
that I'm going to leave you behind  
it's the end of all my worries  
finally I get some peace of mind

'cause you've been bugging me way too long now  
saying, what I'm doing wrong, doing wrong  
I got lost but now I know how  
how to start singing my own song

'cause your song was in the wrong key  
and you played it much too loud  
it was all but close to funky  
that's why it's you, who's on the way out

10. MONEY IN THE BANK

A stands for anchor, B for boat  
I'm gonna buy you an oceanliner, taking everybody 'float

I'm crying hey,  
You can have anything that you think  
And you have all you want  
When you've got the money in the bank

They tell me that  
C stands for Cadillac, D for drive  
I'm gonna run my engine baby and I take you for a ride

I'm crying hey,You can .....

They tell me that  
E stands for England and F for France  
I take you round the world, if you just give me a chance

I'm crying hey,You can .....

You can make whiskey from water, you can make gold from lead  
You know you can't make love, lying in an empty bed  
She's gone, took everything that she could think  
She took my heart, my soul and all my money  
My sex, drugs and rock & roll and all my money  
The girl took my dog and that's where I draw the line,  
people listen..  
She can have the car, she can have the house  
She can have the children, I really don't think they were mine  
But please, tell her please, bring back my dog  
And oh, yeah, one more thing.....  
All my money in the bank
