

STEP ASIDE

people say that I'm crazy
people say that I'm mad
people think that I'm lazy
they say I don't know where it's at

seems like they all know me
and they can read me like a book
always use me like they own me
always give me that sorry look

but pretty soon they'll get to know me
they will see just what's inside of me
I leave their petty thoughts below me
make sure their foolish pride is history

I feel my luck it is coming
I'm just waiting for my second wind
you'll catch me whistling and humming
cause very soon my ship is coming in

I'll show the world I'm gonna make it
everybody watch out and step aside
opportunity knocks, I'm gonna take it
from now on no one's gonna hurt my pride

YOU MOVE ME

Talk to me darling
Talk to me one more time
I still love you baby
And I want you to be mine

You know you move me
Girl you move me
You move me
Girl you move me

Listen to me baby
Always be my girl
I still love you darling
I will take you 'round the world

You know you move me
Girl you move me, you know you move me
Like no one else can do, no one else can do
You move me like no one else can do

Listen to me darling
I don't know what your girlfriend say
I never seen that girl by me
She never walked my way

Cause you know you move me..... etc....

Listen to me darling
Always be my friend
I will love you baby
till the very end

You know you move me.....etc.....

TURN THE WHEEL

I'm driving in my chevy
got my radio turned on
my eyelids sure are getting heavy
while I listen to a song of Dr. John

I've been driving for quite a while now
where I,m heading, I don't know
last night my girl and me were having a row
it was clear I had to go

I must be on the wrong road or made a wrong turn
as sang the man from New Orleans
there's but a few dollars left of money to burn
so I,m going nowhere, that's what it means

fuel's getting low, the sun's on the rise
I sure could use a decent meal
it's time to stop believing in my own lies
it's time for me to turn the wheel

turn the wheel
we got to work on what we got

turn the wheel
we can fix it if we try

turn the wheel
you and me, our love's still hot

turn the wheel
to say it's over, would be a lie

LET IT ALL OUT

I hope I die before I get old
when my whole life I got to do what I'm told

people say that all work and no play
makes you a dull guy with nothing to say

to hell with breaking my back on the job
get me outta here, just tell me to stop

the nearest nuthouse is just 'round the bend
if I don't watch out, that's where I'll be sent

you can't accuse me of being too lazy
but one more hour of work and I go crazy

from time to time you got to let it all out
before you know it, you gonna holler and shout

that's why tonight I'm going out with my baby
we'll rock the town, and I don't mean maybe

you know I'm going to party with my honey
I got the time and she got the money

the nearest nuthouse is just 'round the bend
if I don't watch out, that's where I'll be sent

you can't accuse me of being too lazy
but one more hour of work and I go crazy
